human connections

# Help Minimize Blood Exposure While Reducing the Risk of Accidental Needlestick Injury

The SuperCath 5 safety IV catheter combines blood-containment technology with fully encapsulated needle protection to help your efforts to reduce the risk of needlestick injury and comply with Occupational Safety and Health Administration (OSHA) bloodborne pathogen standards.<sup>1</sup>

## Help minimize the risk of blood exposure

Avoid blood leakage during catheter insertion and setup with an integrated blood-containment valve.

## Reduce the risk of needlestick injury

Avoid accidental needlesticks and needle exposure with push button, spring-loaded needle encapsulation.

## Avoid multiple insertion attempts

Help ensure the catheter is properly in the vessel on the first stick with dual flash technology.
