ABOUT

Introducing Dynarex Resp-O₂[™], our innovative line of respiratory therapy products. Resp-O₂[™] features a comprehensive range of respiratory solutions developed by experts who understand the challenges providers face while administering proper care. Since our founding in 1967, Dynarex has been one of the industry's leaders in disposable and durable medical equipment. As your partner in the marketplace, we continue to diversify our portfolio across the entire continuum of care because the success of your business matters to us. When it comes to doing business with Dynarex, we choose to work like we're family, because We Care Like Family[™].

Dynarex Resp-O₂™ Closed Suction Trach Catheters are disposable respiratory devices designed to safely remove secretions from the respiratory tract of ventilator-dependent patients. The device allows ventilation to continue during suctioning, helps prevent cross-contamination, and protects caregivers from airborne pathogens.

- Protects patient from contact with outside pathogens and prevents contamination of the surrounding environment
- Smooth, flexible tubing minimizes patient discomfort
- Pressure wiper seal helps maintain PEEP
- Flex Tube provides adjustment and flexibility to the ventilator circuit
- Designed for 24-hr, single-patient use
- Not made with DEHP

OXYGEN MASKS

Medium-Concentration

STANDARD

INFANT MASK

ELONGATED

Dynarex Resp-O₂™ Medium-Concentration Masks are designed to effectively deliver oxygen at a concentration rate of 40% to 50%. These masks come with light green oxygen supply tubing, designed to help improve tube visibility.

- Transparent vinyl mask features smooth edges
- Elastic strap allows for easy adjustment
- Adult and pediatric masks feature an adjustable nose clip
- Includes 7' of crush-resistant, star lumen oxygen supply tubing
- Not made with natural rubber latex or DEHP

Tubing

Dynarex Resp-O₂™ High-Concentration Masks are designed to effectively deliver oxygen at concentrations of 80%-100%. The masks feature a reservoir bag to ensure sufficient oxygen supply and light green oxygen supply tubing, designed to help improve tube visibility.

- Transparent vinyl mask features smooth edges
- Mask features an adjustable nose clip and elastic strap
- Includes a vinyl reservoir bag and 7' of crush-resistant, star lumen oxygen supply tubing
- Not made with natural rubber latex or DEHP

dynarex
Resp-O₂

OXYGEN MASKS

Non-Rebreather & 3-in-1

Dynarex Resp-O₂™ Non-Rebreather Masks are designed to effectively deliver oxygen at high concentration rates in emergency situations. The masks feature a safety valve and a reservoir bag to ensure sufficient oxygen supply. Dynarex also offers a 3-in-1 mask that can be used as a medium-concentration, high-concentration, or non-rebreathing mask.

Includes
7' (2.1 m)

CO₂ Sampling
Line & O₂
Tubing
33080 & 33081

Dynarex Resp-O₂™ Oxygen CO₂ Masks & Accessories are designed to help monitor patients' exhaled carbon dioxide levels while maintaining the continuous administration of oxygen. The masks feature an elongated shape for added patient comfort and swivel design for optimal flexibility and range of motion.

- Designed to monitor CO₂ levels from the nose and mouth
- Soft, elongated mask provides a secure fit
- Transparent materials allow for clear visualization
- Includes 7' of crush-resistant, star lumen oxygen supply tubing
- 33080 & 33081 feature CO₂ sampling line and O₂ tubing of equal length
- Not made with natural rubber latex or DEHP

Equal Length EtCO₂ Sampling Line & O₂ Tubing

EtCO₂ NASAL SAMPLING CANNULAS

Dynarex Resp-O₂™ EtCO₂ Nasal Sampling Cannulas with Cushion Nasal Tips are designed to help monitor exhaled carbon dioxide during respiratory treatment. Each soft, cushioned cannula features a permanent barrier between the nasal prongs so that EtCO₂ can be sampled from one nostril while oxygen continues to flow to the other nostril.

- Permanent barrier between nasal prongs allows for EtCO₂ sampling with uninterrupted oxygen delivery

- Constructed from soft materials for added patient comfort
- Crush-resistant tubing helps prevent occlusion and kinking
- Features EtCO₂ sampling line and O₂ tubing of equal length
- Transparent design allows for clear visualization
- Not made with natural rubber latex or DEHP

OXYGEN CONCENTRATOR & ACCESSORIES

Oxygen Concentrator

The Dynarex Resp-O₂™ Oxygen Concentrator is designed to provide supplemental oxygen to help relieve breathing difficulties in respiratory patients. The 5-liter Oxygen Concentrator includes audible alarms, oxygen purity indicator (OPI), and user-friendly flow-meter knob to provide prescribed liters-per-minute. The 37-pound concentrator is easily transportable with accessible top handle and four rolling casters.

- Features a flow range of 0.5-5 LPM
- Audible and visual alarms include Low Flow-Rate, Low/High Pressure, and Power Failure
- Manual reset button helps ensure uninterrupted oxygen delivery
- Designed for quiet operation with low noise output
- Easy-to-read control panel for optimal visibility

Oxygen Concentrator

5 LITER

REORDER NO. 33950

Sterile Water for Inhalation

Dynarex Resp-O₂™ Sterile Water supplies are disposable, single-use respiratory therapy bottles filled with water designed for patient inhalation. The water is sterilized to ensure patient safety and to help avoid cross-contamination.

- Reservoir bottles feature built-in oxygen tubing connectors
- Sterile, transparent adaptor body provides optimal visualization
- Audible alarm alerts clinician to air-flow constrictions

Bubble Humidifier

The Dynarex Resp-O₂™ Disposable Bubble Humidifier is designed to humidify supplemental oxygen for patients receiving oxygen therapy at home. Ideal for use with all types of oxygen concentrators with either face masks or cannulas, the Bubble Humidifier is intended for oxygen low flow rates up to 6 PSI. The transparent humidifier features clearly defined minimum and maximum lines for easy monitoring.

- Features pressure-relief valve with audible alarm for optimal safety
- Includes PVC diffuser to help minimize noise
- Disposable, single-patient use for optimal hygiene
- Not made with natural rubber latex or DEHP

Oxygen Humidifier Connectors

Dynarex Resp-O₂™ Oxygen Humidifier Connectors are designed to attach dry humidifier bottles or pre-filled bubble humidifiers to continuous-flow oxygen concentrators. They come with either sturdy oxygen tubing on one end and a male threaded grip elbow on the other end, or with star lumen oxygen tubing on one end and molded threaded straight connector on the other end. Connectors are universal and fit most humidifier bottles with a DISS connection.

- Transparent oxygen tubing allows for easy visualization
- Universal fit connects with most humidifier bottles and concentrators
- Ribbed connector provides a secure fit without damaging connection points
- Designed to attach to barb-style concentrator outlets
- Not made with natural rubber latex or DEHP

OXYGEN REGULATORS CGA 870-STYLE & CYLINDER WRENCH

Oxygen Regulators

Dynarex Resp-O₂™ Oxygen Flow Regulators are designed to safely and efficiently administer and regulate the flow of oxygen to respiratory patients at adjustable flow-rate levels. They feature an anodized aluminum body with a brass core and brass-encased component parts for optimal safety and reliability. Some select models feature all-brass construction. Designed to fit any oxygen tank with a CGA 870-style fitting.

- Single-selector knob allows for effortless adjustment
- Features easy-to-read flow-rate dial
- Brass core construction provides increased safety and reliability
- Complies to CGA 870 standard
- Not made with natural rubber latex or DEHP

Cylinder Wrench

The Dynarex Resp-O₂™ Oxygen Cylinder Wrench is designed for use with CGA 870-style cylinders to open and close oxygen-tank valves efficiently and safely. The wrench is constructed from strong, durable plastic and ergonomically crafted to effectively manage a variety of cylinders with minimal exertion.

- Sturdy, break-resistant plastic provides reliable, long-lasting performance.
- Ideal for use in a variety of medical settings, long-term care, and homecare
- Sleek, streamlined design allows for quick and easy adjustments.
- Not made with natural rubber latex or DEHP

Dynarex Resp-O₂[™] Oxygen Tank Carts are designed to safely and reliably carry and support D- and E-sized oxygen cylinders. The sturdy frame is constructed from durable carbon steel with an 80-lb capacity. The cylinder cart is available in single-tank and dual-tank varieties and features a height-adjustable handle for easy customization.

- Durable yet lightweight cart provides optimal portability
- 36620 & 36621: Silver-vein finish is easy to maintain
- 36622: Chrome plating helps to resist corrosion
- Large, composite wheels allow for smoother maneuverability
- 80-lb. weight capacity
- Not made with natural rubber latex or DEHP

OXYGEN THERAPY ACCESSORIES

Dynarex Resp-O₂™ Oxygen Therapy Accessories are designed to improve the efficacy, convenience, and overall comfort of respiratory equipment. They are not made with natural rubber latex or DEHP.

Nasal Oxygen Cannula Ear Foam Covers

- Lightweight foam construction
- Suitable for adult and pediatric patients

Oxygen Tubing Adaptors

- Designed to extend adaptability of oxygen tubing

Inline Water Traps

- Traps and collects excess moisture from oxygen tubing
- Keeps liquid away from patients' nasal passages
- Tapered fittings ensure a secure connection to the tubing
- Transparent body allows for clear monitoring of fluid

Portable Oxygen Liter Meter

- Designed to measure gas-flow from oxygen source
- Convenient pen-style design
- Not to be used as a calibration device

STERILE SALINE AND WATER

Dynarex Resp-O₂™ Sterile Saline and Water supplies are disposable, single-use respiratory therapy bottles/vials filled with water or saline solutions designed for patient inhalation or device irrigation. The water and saline solutions are sterilized to ensure patient safety and to help avoid cross-contamination.

Sterile Water for Irrigation, USP & Sterile Normal Saline

- Suitable for suctioning and irrigation
- Not suitable for injection

Sodium Chloride Inhalation Solution, USP – 0.9% Unit Dose Vials

- Provides humidification of respiratory mucosa and helps prevent dryness
- Tamper-proof, color-coded vials allow for effortless identification
- Graduated markings allow clinicians to control dosage by the drop or milliliter (mL)

Prefilled Sterile Water for Inhalation, USP – Nebulizers

- Transparent container allows for quantity view
- Packaged in a convenient bottle with an easy snap-off cap

Sterile Water for Inhalation, USP – Prefilled Bubble Humidifier with Adaptor

- Reservoir bottles feature built-in oxygen tubing connectors
- Sterile, transparent adaptor body provides optimal visualization
- Audible alarm alerts clinician to air-flow constrictions

AEROSOL MASKS

Dynarex Resp-O₂™ Aerosol Masks are designed for use in aerosol therapy to help administer inhalable treatments and aerosol medications to respiratory patients.

- Transparent vinyl mask features smooth edges
- Mask features an adjustable nose clip and elastic strap
- Can be used with most handheld nebulizers
- Connector accepts 22 mm aerosol corrugated tubing and nebulizer cup
- Not made with natural rubber latex or DEHP

SMALL VOLUME NEBULIZER 6 CC CUPS

Dynarex Resp-O₂™ Small Volume Nebulizer Cups are an integral part of the nebulizing process, in which liquid medication is transformed into an inhaled mist to aid in respiratory therapy treatments. The cups feature an anti-spill design that allows patients to receive treatments upright or at an angle.

- Effectively delivers medication at angles up to 90°
- Features a threaded cap to help prevent leaks
- Disposable cup capacity: 6 mL
- Suitable for hand-held and table-top nebulizers
- Not made with natural rubber latex or DEHP

Dynarex Resp-O₂™ Spring Loaded T-Adaptors are designed to be used in conjunction with a small volume nebulizer (SVN) to help deliver aerosol medication to respiratory vent patients. The T-Adaptor features a spring-loaded valve that opens and closes the nebulizer circuit during insertion and removal.

- Eliminates the need to break the ventilator circuit between treatments
- Ventless design prevents medication leakage
- Accepts most standard aerosol tubing/ventilator circuit
- Not made with natural rubber latex or DEHP

PEDIATRIC COMPRESSOR NEBULIZERS

Dynarex Resp-O₂™ Pediatric Compressor Nebulizers are lightweight medical devices, specifically designed for children, that allow for the easy inhalation of prescribed medication. These adorable, child-friendly designs help caretakers manage children's respiratory disorders easily and effectively.

- Small Volume Nebulizer (SVN)
- Converts liquid medication into an aerosol mist for easy inhalation
- Quiet operation levels
- Includes reusable nebulizer cup
- Not made with natural rubber latex or DEHP

Coiled Packed

dynarex
Resp-O₂

70

Dynarex Resp-O₂™ Single Suction Catheters are designed to safely and effectively remove secretions from the respiratory tract of tracheostomy patients. The soft, flexible Catheter with beveled tip is gentle on delicate mucosal tissue yet firm enough to allow for catheter rotation. The Catheter includes a vented cap port for enhanced suction control and two staggered eyelet openings to increase suctioning effectiveness and reduce patient trauma.

- Soft, pliable catheter with beveled tip provides optimal patient comfort
- Vented cap with control valve allows for greater procedural control
- Catheter tip is designed with 2 staggered eyelet openings for maximum suctioning efficiency
- Catheter features easy-to-read depth-number markings
- Coil packed for compact storage
- Sterile, single-patient use
- Not made with natural rubber latex or DEHP

SUCTION CONNECTING TUBING

Non-Conductive • with Male Connector

Dynarex Resp-O₂™ Suction Connecting Tubing is designed to provide secure connections to both portable and in-wall suction sources. This non-conductive Tubing features female connectors on both ends and includes an optional male (straw) adapter for additional attachments.

- Designed to connect suction sources to suction catheters and yankauers
- Constructed from transparent material for clear visualization during suctioning
- Durable, crush-resistant tubing
- Single-use and disposable
- Not made with natural rubber latex or DEHP

YANKAUER SUCTION HANDLES

Dynarex Resp-O₂™ Yankauer Suction Handles are designed to safely and effectively remove particulates and fluids from patients' airways. The curved, one-piece Handle is constructed from transparent materials for clear visualization, and features a slip-resistant, ribbed design to ensure a secure connection to suction tubing.

- Designed to clear airways to help improve ventilation and oxygenation
- Constructed from shatter-resistant plastic materials
- Available in vented, non-vented, bulb-tip, and straight-tip designs
- Sterile, single-use, and disposable for optimal hygiene
- Not made with natural rubber latex or DEHP

DISPOSABLE SUCTION CANISTERS

Dynarex Resp-O₂™ Disposable Suction Canisters are designed to safely and effectively collect and contain aspirated secretions from patients in medical settings. The Canisters feature an ultrasonically welded shut-off valve to help prevent overflow and cross-contamination. These versatile Canisters are adaptable for use with floor, cabinet, or wall-mounted units. Each disposable, single-use Canister comes with a convenient lid equipped with a pour spout, vacuum, and patient port.

- Constructed from high-quality, durable polymer materials
- Port caps are engineered to create a snug seal to prevent vacuum loss
- Transparent canister features easy-to-read gradations for accurate monitoring
- Not made with natural rubber latex or DEHP

OUTER SUCTION CANISTERS & LINERS

Disposable Suction Liners

Dynarex Resp-O₂™ Disposable Suction Liners are designed to effectively and safely collect and contain aspirated fluids and materials. Each high-quality, durable Liner features a patient-port elbow adaptor that allows quick and easy hookup and helps prevent tubing from kinking. The Liner is ultrasonically sealed to the lid—so no assembly is needed. Suction Liners require the use of a reusable outer canister.

- Ultrasonically welded shut-off valve helps prevent overflow and contamination
- Lid comes sealed and pre-assembled with pour spout, vacuum, and patient ports
- All port caps are engineered to create an air-tight snug seal
- Not made with natural rubber latex or DEHP

Reusable Outer Suction Canisters

Dynarex Resp-O₂™ Reusable Outer Suction Canisters are designed for holding inner-liners to safely collect and contain secretions and bodily fluids during suctioning. The rigid reusable Canister is precision-crafted from high-quality polymer materials. The Canister features a built-in bracket engineered for easy wall-mounting, and pre-attached vacuum tubing for secure connection with inner-liners.

- Features built-in adjustable on-off valve
- Clearly marked critical measure numbering
- Designed for use with disposable inner-liners
- Not made with natural rubber latex or DEHP

SUCTION ACCESSORIES

Fluid Solidifiers

Dynarex Resp-O₂™ Fluid Solidifiers are designed to be used in conjunction with suction canisters to provide safe and effective containment of biohazardous liquids. The Fluid Solidifier is formulated to quickly turn secretions into a gel, greatly reducing the risk of exposure to contaminated bodily fluids and aerosolized bloodborne pathogens. The Fluid Solidifier allows for the safe transport of infectious waste and eliminates the risk of spills and sprays.

- Formulated to safely encapsulate biohazardous liquids
- Screw-cap bottle allows for easy dispensing and secure storage
- Helps reduce turnover time between procedures by quickly solidifying waste

Mucus Specimen Trap

The Dynarex Resp-O₂™ Mucus Specimen Trap is designed for use with suction devices to safely collect specimens and trach cultures for testing and analysis. The transparent 40 cc container features clearly marked gradations in 1 cc increments for easy visualization of contents. The sterile trap includes a disposable adapter to help prevent cross-contamination, and a leak-resistant screw-on cap to help maintain a sterile pouring surface.

- Features heavy-walled, collapse-resistant tubing
- Includes threaded cap for secure seal
- Packed in a convenient, easy-peel envelope
- Includes patient label for easy identification
- Sterile trap is disposable and designed for single use
- Not made with natural rubber latex or DEHP

Suction Canister Bracket and Suction Canister Ring

Dynarex Resp-O₂™ Suction Canister Brackets and Rings are designed for use with disposable and reusable canisters for easy attachment and wall mounting. Brackets are constructed from top-grade plastic materials and Rings are made from high-quality stainless steel.

SUCTION UNITS

Vacuum Levels up to 560 mmHg

32300

32301

Dynarex Resp-O₂™ Suction Units are premium-grade medical devices designed to safely and effectively remove excess secretions and fluids from the airways of respiratory patients. These powerful suction units are easily portable and feature high-quality vacuum regulators and anti-vibration vacuum gauge settings to ensure quiet and efficient operation.

- Designed to provide vacuum levels up to 560 mmHg
- Fiber filter guards against bacteria and contaminants
- Clearly marked gauge allows for easy pressure monitoring
- Oil-less lubrication provides consistent functionality
- Includes an 800 cc disposable suction canister, tubing and bacterial filter

TRACHEOSTOMY CARE KITS

Dynarex Resp-O₂™ Tracheostomy Care Kits are designed to provide the essential components needed for the preparation, cleaning, and care of tracheostomy tubes. These time-saving Kits are disposable, portable, and compact for easy use and storage. The components in these fully sealed, single-use Kits are sterile and come packed in sequence of use for maximum efficiency.

- Fully sealed and sterile package and contents
- Components are packed in order of procedural use
- Disposable, single-patient use
- Not made with natural rubber latex or DEHP

MANUAL PULMONARY RESUSCITATORS (MPR)

Dynarex Resp-O₂™ Manual Pulmonary Resuscitators (MPR) are premium-grade medical devices designed for resuscitation and life support measures performed by qualified medical professionals. The lightweight, single-patient MPR bag features a textured design to provide a non-slip grip and comes pre-assembled with 10 feet of oxygen tubing and soft cushioned facial mask.

- MPR/intake valve ensures one-way air-flow
- Swivel port rotates 360° for optimal freedom of movement
- Translucent components allow for improved visualization
- Disposable, single-patient use
- Not made with natural rubber latex or DEHP

PULMONARY FUNCTION MEASUREMENT

Peak Flow Meters

Dynarex Resp-O₂™ Peak Flow Meters are hand-held monitoring devices that measure peak expiratory flow (PEF). This lightweight, durable Meter is designed to help patients track daily changes in their breathing patterns. The Dynarex Resp-O₂™ Peak Flow Meter is available in Adult size (standard range 50-800 L/min) and Pediatric size (low range 50-300 L/min).

- Color-coded indicators help to track daily progress
- Easy-grip handle for steady handling
- Not made with natural rubber latex or DEHP
- Includes peak flow rate diary to track daily progress
- Disposable mouthpieces are available for added protection against bacteria and cross-contamination

Spirometers

Dynarex Resp-O₂™ Incentive Spirometers are hand-held devices designed to help improve lung function and minimize the risk of post-operative respiratory complications. The compact, durable spirometer helps motivate patients to strengthen their breathing muscles, particularly when recovering from prolonged anesthesia, surgery, or extended bed rest. The device features clear, easy-to-read markings to provide visual feedback to help patients monitor their progress.

- Adjustable indicator provides target guidelines to indicate sufficient lung exercise
- Flexible mouthpiece allows for easy adjustment and optimal comfort
- Features dual-sided, clearly marked calibrations for effortless visualization
- Compact design provides enhanced efficiency and ease of handling
- Not made with natural rubber latex or DEHP
