Gebauer's
PainEase ®
The INSTANT topical anesthetic

Instantly Control Your Patients' Procedural Pain

In your practice, you diagnose and treat people of all ages. Performing needle and minor surgical procedures can be painful for your patients. Use Gebauer's Pain Ease® topical anesthetic skin refrigerant to instantly and temporarily control the pain of needle and minor surgical procedures.

Needle Procedures:
- Immunizations
- IV starts
- Joint injections
- Allergy injections
- Blood draws
- Pre-lidocaine injections and, in some cases instead of a lidocaine injection

Minor Surgical Procedures
- Incision and drainage of small abscesses
- Foreign body removal
- Lancing boils
- Skin tag removal
- Suturing and suture removal

Important Risk and Safety Information for Gebauer's Pain Ease:

Consult your pediatrician when using on children 4 years old and younger. Do not use on large areas of damaged skin, puncture wounds, animal bites or serious wounds. Do not spray in eyes. Over spraying may cause frostbite. Freezing may alter skin pigmentation. Use caution when using product on persons with poor circulation. Apply only to intact oral mucous membranes. Do not use on genital mucous membranes. The thawing process may be painful and freezing may lower resistance to infection and delay healing. If skin irritation develops, discontinue use. CAUTION: Federal law restricts this device to sale by or on the order of a licensed healthcare practitioner.

Pain doesn't wait. Ease it in an instant.
Prepare your patients for needle and minor surgical procedures with Pain Ease, the INSTANT topical anesthetic.

- Temporarily controls pain and anxiety in as few as 4 to 10 seconds
- Use on intact skin, minor open wounds and intact oral mucous membranes
- May be used by any licensed healthcare practitioner without the order of a physician
- Nondrug, nonflammable formula
- Trusted by healthcare professionals for over 10 years
