Pain Ease also can be used prior to needle and minor surgical procedures such as:

- IV Starts
- Blood draws
- Injections
- Incision and drainage of small abscesses
- Lancing boils and foreign body removal
- Suturing and suture removal

Pain Ease is FDA cleared for use on:

- Intact skin
- Minor open wounds
- Intact oral mucous membranes

Gebauer's
PainEase®
The **INSTANT** topical anesthetic

Available in:

Medium Stream Spray
0386-0008-03

Mist Spray
0386-0008-02

Important Risk and Safety Information for Gebauer's Pain Ease:

Published clinical trial results support the use in children three years of age and older. Do not use on large areas of damaged skin, puncture wounds, animal bites or serious wounds. Do not spray in eyes. Over spraying may cause frostbite. Freezing may alter skin pigmentation. Use caution when using product on diabetics or persons with poor circulation. Apply only to intact oral mucous membranes. Do not use on genital mucous membranes. The thawing process may be painful and freezing may lower resistance to infection and delay healing. If skin irritation develops, discontinue use. **CAUTION:** Federal law restricts this device to sale by or on the order of a licensed healthcare practitioner.

**Pain Ease has been trusted
