

ELASTIC NETS

IMed Products® Elastic Net Retainer Dressings offer a versatile solution for securement needs across a range of clinical applications. Available in multiple sizes, they provide gentle compression and support to hold IV lines, dressings, and tubing in place without the need for tape or gauze. Designed to reduce the risk of skin stripping and irritation from adhesive removal, these dressing retainers are effective for use in adult and pediatric care. Common applications include burn care, post-surgical and donor site dressing changes, wound management, EKG stress testing, and sleep studies.
