

TCBWALC1204

Sterile Woven Polyester Presaturated Wipes

- + Our wipes ensure consistent, repeatable application for enhanced contamination control.
- + Convenience: pre-saturated with isopropyl alcohol 70% USP and 30% deionized water.
- + 100% woven polyester: 120 g/m²
- + Gamma irradiated to a 10⁻⁶ sterility assurance level.
- + Secure packaging: peel-and-reseal design prevents evaporation when stored correctly.
- + Double bagged for added cleanroom protection.
