

Vyaire respiratory consumables product portfolio

Our extensive portfolio of respiratory device solutions empowers you to provide the highest-quality patient therapy. Whether your patients are ventilated or breathing on their own, our consumables, along with a broad offering of products from our strategic partners, help address your cross-contamination concerns in today's healthcare environment. Our respiratory products also provide essential tools to help you drive efficiencies, maximize clinical goals and promote patient satisfaction.

Vyaire products are designed to meet each patient's needs across the care continuum—from hospital to home—assisting infants and adult patients who require ventilation, O₂ and medication delivery.

Why Vyaire?

- Clinical differentiation through an industry leading and unique product portfolio
- Standardization around a core respiratory portfolio with a leading set of products
- Quality care solutions that reduce variability in processes and products
